VAPOR X:60 SKATE

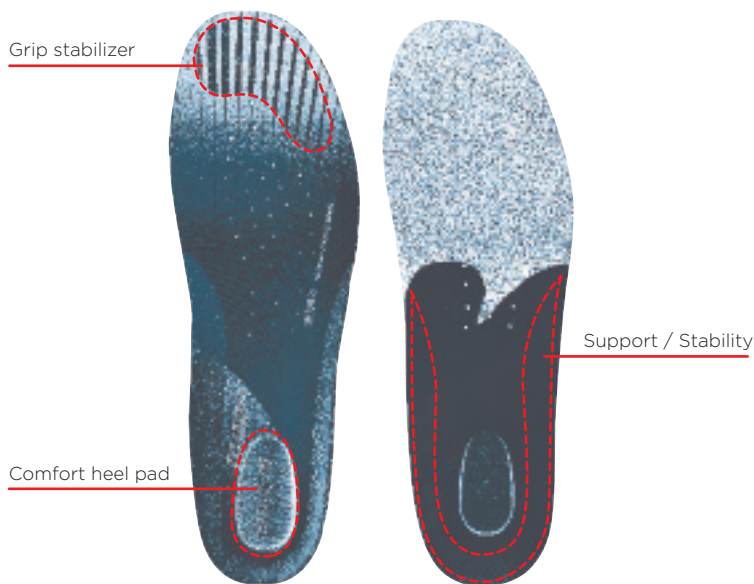

**0 TO 60
IN YOUR X:60**

Whether it's for 60 seconds of all-out speed or going full-tilt for a 60-minute game, the skate that continues to make the game faster is the Vapor X:60. A culmination of 80+ years spent perfecting fit and comfort, the sixth-generation Vapor X:60 is the ultimate in high-speed performance. Built from the outside in, it uses the patented X-rib construction for structure and stability, allowing for fast acceleration and explosive turns. Quick feet need quick skates — and it doesn't get any quicker than the Vapor X:60.

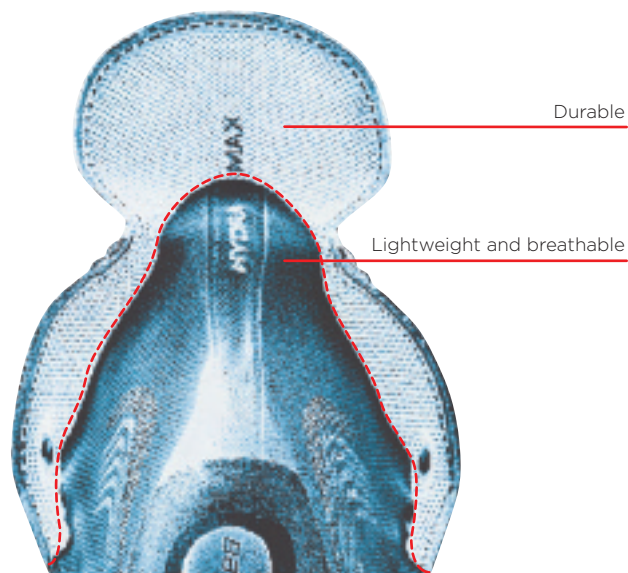

SUPERFIT+ FOOTBED

Comfort meets performance in the NEW Superfit+ footbed. Featuring a built-in heel stabilizer with grip, arch support system and comfort heel pad...the result...increased foot stability, maximum energy transfer, and instant step-in comfort that players expect.

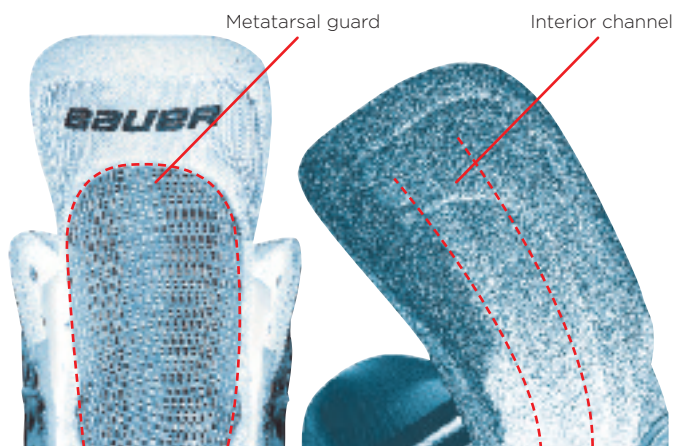

HYDRA-MAX LINER

One-part moisture-wicking. One-part abrasion-resistant. Together, it adds up to a superior liner that keeps the feet dry and cool and locks the heel in tight. A durable top layer minimizes wear and tear around the top of the ankle.

FORM-FIT 2 TONGUE

A tongue needs to flex, protect and provide fit and comfort. We molded the tongue anatomically to allow the player to flex forward easier. We added an exterior high-density metatarsal guard to protect against puck impacts, and we created an interior channel to alleviate lace-bite pressure, and prevent the tongue from rotating on the foot, delivering a superior fit.

CONSTRUCTION / FIT

Built from the inside out. This straightwall boot construction has a patented integrated X-rib design that provides structural support and stability throughout the boot, allowing for fast acceleration and quick turns. The angle of the boot is cut aggressive to allow greater forward flex.

Vapor X:60 Skate

Size

Sr [1031434] 6-12 full and half/D, EE widths

Jr [1031435] 1-5.5 full and half/D, EE widths

Yth [1031436] 8, 9, 10-13.5 full and half/D, EE widths

Upper Features

Quarter Package	Ultra-light tech mesh with thermoformed X-rib pattern
Lining Material	Hydra Max liner
Heel Support	Patented pro-integrated, anatomical heel/ankle support
Ankle Padding	NEW lightweight dual-density + foam ankle pads
Tongue Construction	Form-fit 2 molded tongue, with lace bite channel, abrasion resistant material, and high-density metatarsal guard
Footbed	Superfit+ with grip, moisture management, heel stabilizer and comfort pad
Thermoformable	Full upper

Lower Features

Outsole	Full carbon composite
Blade Holder and Runner	Tuuk Lightspeed 2 with LS2 stainless steel runner

To be revealed in April 2009

Vapor X:50 Skate

Size

Sr [1032567] 6-12 full and half/D, EE widths

Jr [1032568] 1-5.5 full and half/D, EE widths

Upper Features

Quarter Package	Lightweight tech mesh with thermoformed X-rib pattern
Lining Material	Hydra mesh liner
Heel Support	Patented pro-integrated, anatomical heel/ankle support
Ankle Padding	NEW dual-density foam ankle padding
Tongue Construction	Form-fit molded, anatomical forward flex tongue with high-density metatarsal guard
Footbed	Superfit+ with grip, moisture management, and heel stabilizer
Thermoformable	Full upper

Lower Features

Outsole	Full texallium composite
Blade Holder and Runner	Tuuk Lightspeed 2 with LS2 stainless steel runner

To be revealed in April 2009

Vapor X:40 Skate

Size

Sr [1031441] 6-12, full and half/D, EE widths, 13-14-15 full E width

Jr [1031442] 1-5.5 full and half/D, EE widths

Upper Features

Quarter Package	Lightweight sublimated basket-weave nylon with thermoformed X-rib pattern
Lining Material	Quick-dry hydrophobic gripliner
Heel Support	Patented pro-integrated, anatomical heel/ankle support
Ankle Padding	NEW lightweight insta-form+ foam ankle pads
Tongue Construction	Anatomical, 2-piece 48oz felt with metatarsal guard
Footbed	Superfit+ with stabilizer grip
Thermoformable	Full upper

Lower Features

Outsole	Fiber Composite
Blade Holder and Runner	Tuuk Lightspeed 2 with LS2 stainless steel runner

To be revealed in April 2009

Vapor X:30 Skate

Size

Sr [1031444] 6-12 full and half/D, EE widths

Jr [1031445] 1-5.5 full and half/D, EE widths

Upper Features

Quarter Package	Sublimated silver tech-nylon with thermoformed X-rib pattern
Lining Material	Hydrophobic microfiber
Heel Support	Patented integrated, anatomical heel/ankle support
Ankle Padding	Insta-form foam ankle pads
Tongue Construction	Anatomical, 2-piece 40oz felt with metatarsal guard
Footbed	Superfit with stabilizer grip

Lower Features

Outsole	Lightweight, Pro-8 beveled TPU
Blade Holder and Runner	Tuuk Lightspeed 2 with super stainless steel runner

To be revealed in April 2009

Vapor X:20 Skate

Size

Sr [1031447] 6-12 full and half/D, EE widths

Jr [1031448] 1-5.5 full and half/D, EE widths

Yth [1031446] 8, 9, 10-13.5 full and half/D, EE widths

Upper Features

Quarter Package	Sublimated tech nylon with thermoformed X-rib pattern
Lining Material	Hydrophobic microfiber
Heel Support	Patented integrated, anatomical heel/ankle support
Ankle Padding	Insta-form foam ankle pads
Tongue Construction	Anatomical, 2-piece 40oz felt, with metatarsal padding
Footbed	Molded with integrated heel support

Lower Features

Outsole	Lightweight, Pro-8 beveled TPU
Blade Holder and Runner	Tuuk Lightspeed Pro with super stainless steel runner

To be revealed in April 2009

Vapor X:15 Skate

Size

Sr [1031450] 6-12 full and half/D, EE widths

Jr [1031453] 1-5 full and half/D, EE widths

Upper Features

Quarter Package	Sublimated woven nylon with thermoformed X-rib pattern
Lining Material	Microfiber
Heel Support	Exterior embossed heel cup/ankle support
Ankle Padding	Insta-form foam ankle pads
Tongue Construction	Anatomical, 2-piece felt
Footbed	Molded comfort EVA

Lower Features

Outsole	Dual density beveled TPR
Blade Holder and Runner	Tuuk Lightspeed Pro with super stainless steel runner

To be revealed in April 2009

Vapor X:05 Skate

Size

Sr [1031455] 6-12 full /R width

Jr [1031456] 1-5 full /R width

Yth [1031457] 6-13 full /R width

Upper Features

Quarter Package	Sublimated reinforced mesh with thermoformed X-rib pattern
Lining Material	Brushed nylon
Heel Support	Exterior embossed heel cup/ankle support
Ankle Padding	Closed-cell foam
Tongue Construction	Anatomical 1-piece felt
Footbed	Standard comfort

Lower Features

Outsole	TPR
Blade Holder and Runner	Tuuk Lightspeed Pro with stainless steel runner

To be revealed in April 2009

SUPREME ONE95 SKATE

POWER UP

The Supreme ONE95 is designed with the performance needs of the elite level player in mind. Built for maximum power and lightweight performance with a personalized fit so every player gets supreme comfort and performance. The longer LS 2.1 Power Blade gives you maximum energy transfer in every stride, getting you to the net faster than ever before.

ANAFORM FIT

Get a more comfortable fit and a more responsive skate with the anatomically correct Supreme ONE95. Anatomical thermoforming gives you true 360° personalization. When the skate is heated it can be formed around your ankle and heel, providing a custom fit for any foot shape, locking in your foot and giving you a true performance advantage on the ice.

LS 2.1 POWER BLADE

The new LS 2.1 Power Blade has been redesigned to work seamlessly with the white Lightspeed 2 Holder. A longer runner means maximum blade contact with the ice, translating to more power in every stride.

Y = LS 2 Runner
X = LS 2.1 Power

ERGO TOE CAP

A truly anatomical toe cap that mirrors the shape of your foot it is the perfect complement to the most precise fitting skate on the market. A unique toe cap per size delivers added support during quick cuts and bursts of speed.

SUPREME ONE95 STICK

THE POWER PLAYER

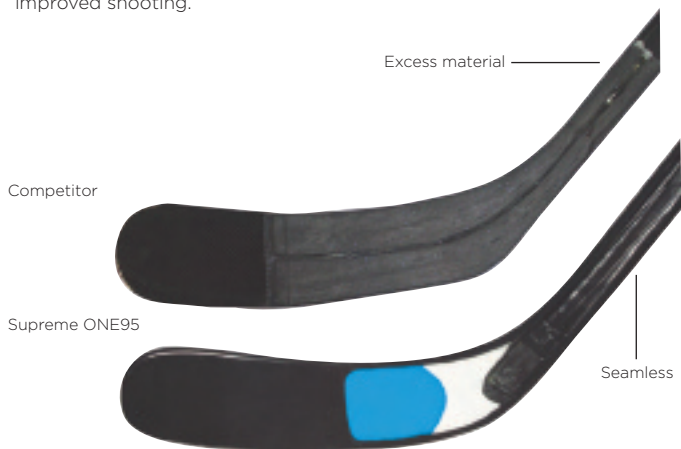

Engineered and refined to deliver explosive one-timers and scorching slapshots, the Supreme ONE95 stick is built for the strong and powerful. Designed to withstand maximum loading, it delivers pure power in each and every shot.

With its low-mid flex, and a torsionally stiff lower third, the overall design creates more energy transfer per shot, resulting in greater velocity. This stick leaves nothing on the ice...except for maybe a few hats.

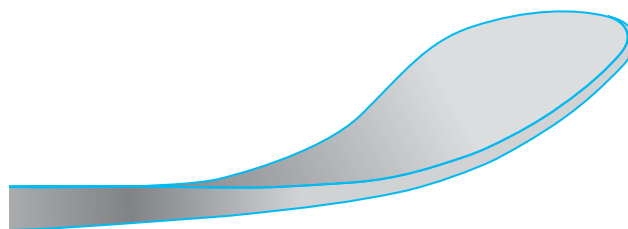

MONOCOMP TECHNOLOGY

The overall balance and weight of the stick have been optimized by the removal of excess material at the joint. An industry-leading single molding process delivers improved consistency and better balance for improved shooting.

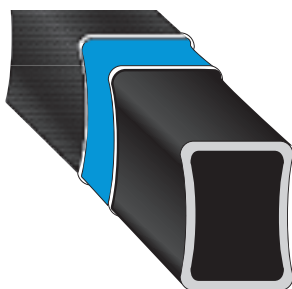

BLADE PROFILE

The squared-off profile of the Supreme ONE95 provides improved blade-to-puck-to-ice contact, resulting in superior shot velocity. The blade is finished with a matte black paint to avoid any distracting reflections.

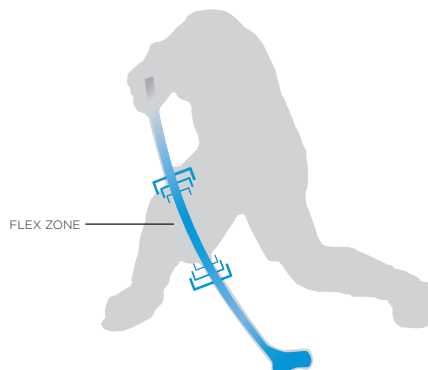

TAPER

The .520" power taper boosts torsional stiffness to maximize loading with less torquing and twisting for better control and precision.

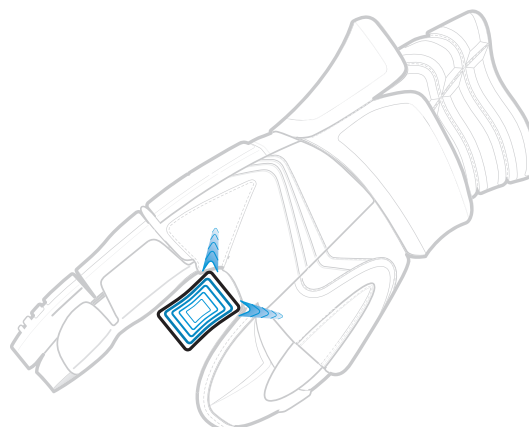

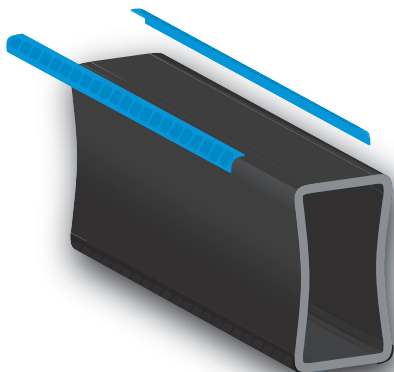

LOW-MID KICK POINT

Torsional stiffness in the lower third generates more stored energy, creating increased power in every shot — whether it's a booming slapshot or a blistering one-timer.

SHAFT DIMENSION & TACTILE EVOLUTION

Less is more. The tactile texture technology has been evolved to focus solely on critical areas, creating better precision and a more secure grip — not to mention a 10g reduction in weight. This stick also features double concave shaft walls with square corner radius for a heightened sense of feel for the stick.

VAPOR XXXX STICK

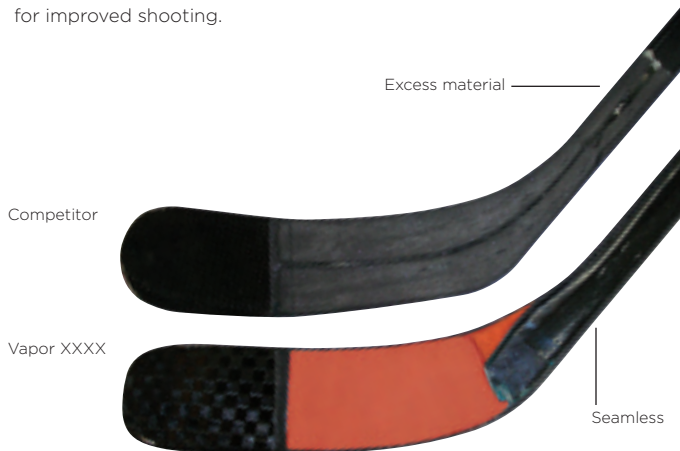

**XXXX TIMES
BETTER FOR
FASTER SHOTS**

With optimum balance and feel, the lightweight Vapor XXXX gives you the touch you need to put the puck where you want it. Thin taper plus a low kick point allows for faster loading and laser accurate shots.

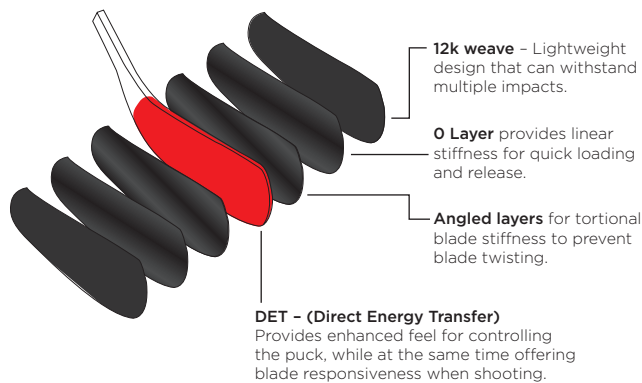

MONOCOMP TECHNOLOGY

The overall balance and weight of the stick have been optimized by the removal of excess material at the joint. An industry-leading single molding process delivers improved consistency and easier loading for improved shooting.

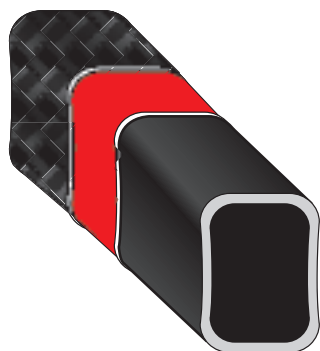

DET BLADE

The Direct Energy Transfer Blade provides both an enhanced feel for controlling the puck and blade responsiveness when shooting. This means better puck handling, laser point accuracy for a tape-to-tape game.

.470" VAPOR PREMIUM TAPER

A thin taper and thinner shaft walls provide easier loading and quicker release. Shoot faster. Shoot more often.

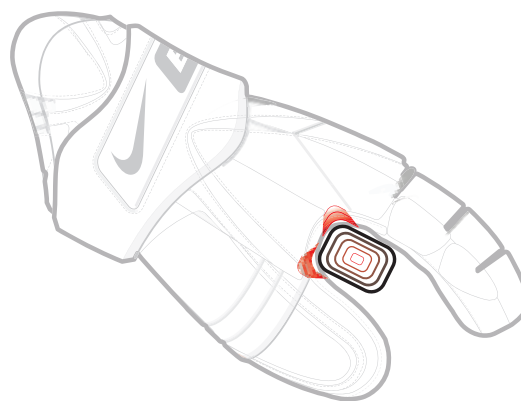

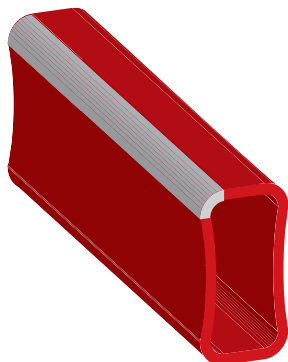

LOW KICK POINT

The lower third of the stick is built for easier loading, resulting in lightning-quick releases and deadeye accuracy.

SHAFT DIMENSION (MICRO-FEEL SHAPE)

Rounded corners and double concave shaft walls allow the shaft to fit comfortably in your hands. The result is easier puck handling and superior control.

Choose Your Advantage

SUPREME

STRENGTH & POWER

The power player that unloads explosive one-timers and bombs the heavy slapshot.

VAPOR

OPTIMAL BALANCE + FEEL

The crafty player that excels in puck-handling and quick-release shots.

Get the Pattern that Suits Your Style

PATTERN	LIE	CURVE	FACE	TOE	LENGTH
PM9 - Malkin passing / handling front and back	5	MID-HEEL	OPEN	ROUND	MED
P88 - Lindros wrist shots / handling	6	MID	SLIGHT-OPEN	ROUND	MED
P91A - Staal top shelf / deflections	6	MID-HEEL	OPEN-WEDGE	ROUND	LONG
P92 - Naslund toe drags / control / top shelf	6	MID-TOE	OPEN	ROUND	MED
P106 - Gagne rising shots / saucer passes	5	HEEL	OPEN	ROUND	MED
P02 - Samsonov toe drags / slapshots	7	HEEL	OPEN	SQUARE	LONG

Find Your Flex

MODEL	FLEX	PLAYER PROFILE	CUTTING THE STICK DOWN CHANGES THE FLEX		
			2"	4"	6"
YTH	42	Kids are growing up with composite in today's hockey market, it should start with Yth players.	49"	57"	67"
JR	52	Generally for ages 8-12 where the skills are in early development and softer flex will enhance puck velocity and increase release time.	60"	68"	77"
INT	67	This flex is great for the Pee-wee-Bantam age player that has smaller hands that can't quite use a SR shaft dimension but needs the longer blade for controlling the puck.	74"	80"	87"
SR	77	For the player seeking maximum energy loading; this is the softest flex available in the market today in a SR shaft dimension.	84"	92"	100"
SR	87	Probably the most popular flex rating today, this is for the player seeking a quick-release whether it's a one-timer or streaking down the wing.	96"	105"	112"
SR	102	This is for the player that has an arsenal of different shots within their game.	108"	115"	122"
SR	112	Targeted for the bigger, stronger player that needs max. stiffness when leaning into a shot. This stick is designed to withstand the maximum loading by today's power forward or defense.	118"	125"	132"

SUPREME ONE95 GLOVE

FEEL THE POWER

Engineered for the ultimate anatomical fit, the Supreme ONE95 glove is the next evolution of lightweight protection. Anatomical segmentation in the back roll of the glove gives players the immediate comfort they desire, while MAX-SORB technology ensures the maximum protection that the game requires. The natural grip and seamless integration of the Reflex Wrap Palm enhances the feel of power in the player's game.

REFLEX WRAP PALM

Made with strong yet lightweight, super-stretch Lycra and Nash-grain materials to enhance a player's comfort and performance. Removing the excess material between glove and stick allows the glove to perform like a true extension of your hand.

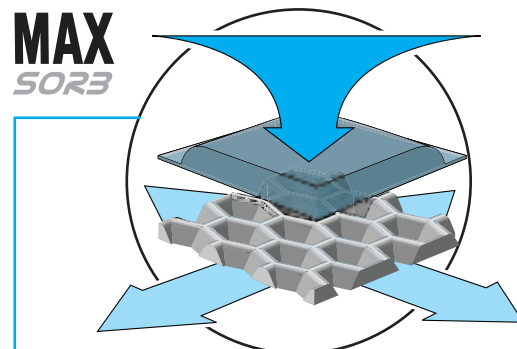

ANATOMICAL FIT

Engineered from the inside out, the Supreme ONE95 fits precisely to the player's hand, allowing for maximum energy transfer from player to stick to puck.

MAX-SORB PROTECTION

Utilizing BAUER's own MAX-SORB technology in high-impact areas allows for the ultimate protection against the many rigors of the game.

THERMO MAX+ LINER

Start the game light and dry, end the game the same way. BAUER's new Thermo Max+ liner offers everything a player needs with a moisture-wicking antibacterial liner that helps control the interior temperature of the glove.

VAPOR XXXX GLOVE

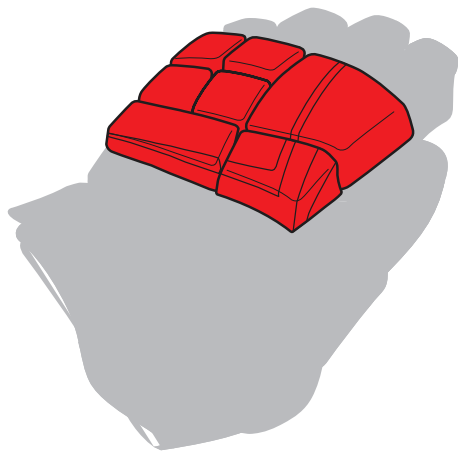

FITS LIKE A
VAPOR

The glove that feels like an extension of your hand gives you unparalleled flexibility thanks to a Segmented Back Roll, protecting you from every hit and every blast. Get a greater feel for the game with the Vapor XXXX.

SEGMENTED BACK ROLL

The Segmented Back Roll gives you maximum flexibility, allowing for complete integration of the glove and your hand.

FOAM INSERTS

With strategically placed Low-Density and High-Density Foam and Poly Inserts, the Vapor XXXX Glove protects your hands while you elevate your game.

TAPERED FIT

Engineered for ultimate performance and comfort, the Vapor XXXX offers a unique tapered fit profile to give maximum feel and playability to the player.

REINFORCED NASH PALM

Get the increased durability that pro palm material provides. With a dual layer Ivory Nash Palm, the Vapor XXXX can take the beating from the most fierce competition.

MULTI FLEX LOCK THUMB

Protection and Flexibility in one glove. The 3-part thumb is designed for maximum movement, yet it also features a locking component to guard against hyper extension.

DYNAMIC CUFF

Featuring an Adjustable Pad for customized protection and a restriction free dynamic pad for increased coverage during wrist flexion, the Dynamic Cuff lets you keep your concentration where it needs to be — on the puck.

NIKE BAUER 9500 HELMET

THE ULTIMATE PLAYER'S HELMET

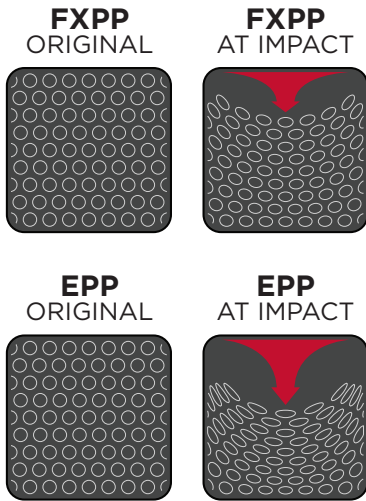

The 9500 helmet is the combination of a low profile design players are looking for with elite level protection that the game demands. Through Research and Development, the 9500 helmet features New Liner Technologies, Unique Shell Innovations and Player Performance elements exclusive to NIKE BAUER Hockey.

FXPP LINER

Fused Expanded Polypropylene foam liner transmits 20% less energy during impact than the same volume of traditional EPP foam. Located in key impact zones, the FXPP liner helps dissipate energy during impact keeping the player in the game.

FXPP FOAM

BIOMECHANICAL SHELL

The Dual-density HDPE shell combines both protective and flexible material for a personalized fit, allowing the helmet to self-adjust to the vast head shapes in the game.

NIKE BAUER 9500 OVAL FACE MASK

Less Obstruction = Better Hockey. Optical wire configuration, proprietary oval wires and the use of stainless steel brings a whole new vision to the game. NIKE BAUER 9500 Face Mask offers lightweight strength allowing the use of thinner wires in key visual areas to reduce visual obstruction by 20% vs. competitor's premium models.

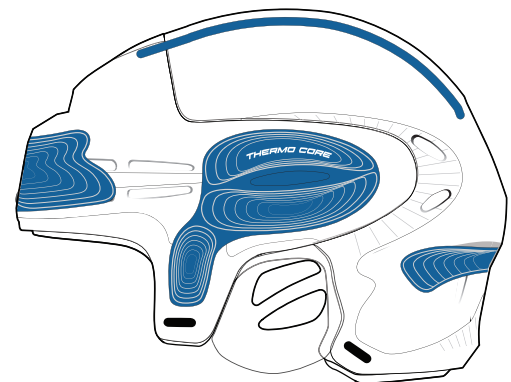

*VISION OBSTRUCTION REDUCED BY 20%

*TEST PROJECT HF-021 CONDUCTED BY ST. JÉRÔME LAB, QUÉBEC JULY 2007. WEIGHT AND SURFACE OBSTRUCTION AREA COMPARISON TAKEN USING MEDIUM SIZE ITECH IT908 TITANE, CCM FM480 FACE MASK VS. S8 FM9500 OVAL FACE MASK.

THERMO CORE

Get protection without sacrificing comfort. Integrated into the Comfort Padding of the helmet, Thermo Core absorbs and releases excess heat, balancing a player's body temperature allowing them to focus on the game.

WARNING: Hockey helmets are required for all levels of play and must meet CSA, HECC, or CE certification standards. All BAUER hockey helmets meet or exceed these standards. Ice Hockey is a collision sport that is dangerous. These helmets afford no protection from neck, spinal, or certain types of brain injuries including those that may be caused by rotational forces. Severe head, brain, or spinal injuries including paralysis or death may occur despite this helmet. Do not use this helmet if the shell is cracked or if the interior padding is deteriorated. Read instructions carefully before wearing.

SUPREME ONE95 PROTECTIVE

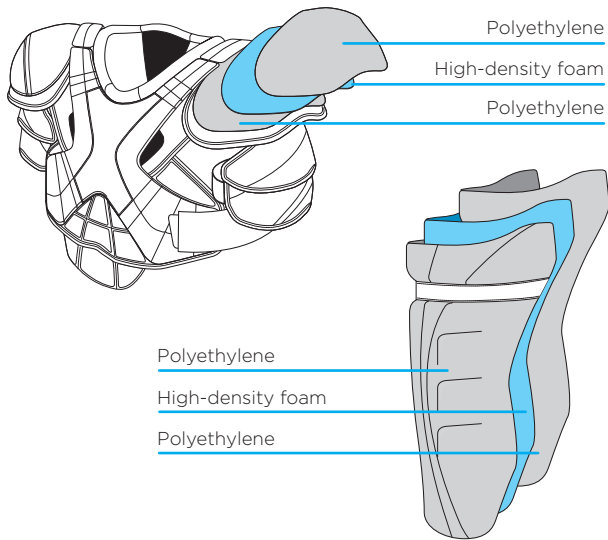

**SIMPLY
SUPERIOR**

Powerful players need powerful protection. The Supreme ONE95 Protective series answers the need like nothing else out there. Drawing from the many on-ice inspirations in the game, the all-new line of protective equipment introduces cutting-edge F-ONE shell technology, which fuses high-density foam and polyurethane as one. Combined with BAUER's new MAX-SORB impact displacement technology, it sets a new bar of player protection.

F-ONE SHELL TECHNOLOGY

A fusion process of manufacturing, F-ONE Shell technology fuses high-density foam and rigid polyethylene as one. The benefits include 25% greater energy absorption and a 15% weight reduction over traditional polyurethane shells. F-ONE Shell Technology sets a new standard of protection for those areas of the body that take the brunt of blocking shots, body checks and slashes.

THERMO MAX+ LINER

State-of-the-art moisture-wicking properties help regulate body temperature and prevent the build-up of bacteria.

MAX-SORB UNITS

Combination HX-SORB foam and gel material designed for those high-impact areas like the sternum, knee caps and elbow joints that require a high level of energy displacement. MAX-SORB is proven to diffuse 25% more energy than traditional high-density foams.

Z-ANCHOR STRIP

Locking the equipment to the player's body is a top priority. The Z-ANCHOR Strap secures the ONE95 Elbow Pads and Shin Guards to minimize movement during play.

Supreme ONE95 Protective

Size

Shoulder Senior
[1031428] S, M, L, XL
Shoulder Junior
[1031429] S, M, L

Features

PROTECTION:

BAUER MAX-SORB sternum protection
BAUER F-ONE shell technology on shoulder caps
Vent Armor foam in chest and spine
Perforated poly inserts in spine
Additional rib protection pad
HD foam inserts in chest and spine
Poly reinforced bicep guards
Perforated foam panels for lightweight breathability
Reinforced arch protection
Removable abdominal protection pad

FIT/MOBILITY:

Multi-segmented, multi-panel upper body design
Adjustable, segmented FREE FLEX bicep guards
Adjustable Shoulder Cap Jr; Flexible neck openings

VAPOR XXXX PROTECTIVE

ADVANCEMENT OF THE EXOSKELETON

Vapor XXXX protective defines the new standard in mobility, protection and fit, built on the principle of Dynamic Fit Protection. It incorporates Free Flex Systems into the Shoulder, Elbow and Shin Pads to allow for maximized fluidity. Vent Armor Composite uses fused Vent Armor Foam and molded PE shells to create lighter weight impact absorption. A molded HD foam sternum plate, Spinal Flex Shield, ventilated base layer foams and NIKE Dri-FIT provide living, breathing protection. The Precision Fit System and Strap Stays allow customization, while Anchor Straps, Wrap Straps and NIKE Grip keep the gear secure where protection is essential. Shift after shift, Vapor XXXX is your license to freely skate where you want, when you want.

SHOULDER PADS

The Vapor XXXX Shoulder Pad is optimized for fit and protection. A Precision Fit System lets the player customize chest coverage, while the Free Flex Arch and Bicep System maximizes range of motion. Fused Vent Armor Composite Shoulder Caps, molded 3-D chest plate, Flex Shields, NIKE Dri-FIT and Strap Stays combine to create a comfortable, protective fit.

ELBOW PADS

The Free Flex Elbow Cap of the Vapor XXXX Elbow Pad incorporates the Free Flex Liner and Vent Armor Composite, creating an optimal flexibility through an additional flex point. Vent Armor Foam provides protection while a molded poly forearm, Anchor Straps and NIKE Grip Print set the benchmark for fit and maneuverability.

Free Flex

SHIN GUARDS

The Vent Armor Composite shell of the Vapor XXXX Shin Guard provides lightweight impact absorption while the ventilated Free Flex Liner allows for increased flexibility. The Free Flex Knee Cap's flexible dual density impact guard covers more area and protects the player in any position. The Vapor XXXX Shin Guard will have you feeling invincible.

VAPOR XXXX Protective

Size
Shoulder Senior
 [1028930] S, M, L, XL
Shoulder Junior
 [1028931] S, M, L

Features
PROTECTION:
 Molded HD Foam sternum plate
 Vent Armor composite shoulder caps
 Spinal flex shield with dual density foam
 Dual density arch protection
 Poly reinforced bicep guards
 Perforated foam panels for lightweight breathability
 Removable extended core protection

FIT/MOBILITY:
 Vapor FREE FLEX system incorporating:
 - FREE FLEX arch protector
 - FREE FLEX bicep
 Precision fit system with adjustable chest panels
 Multi-segmented, multi-panel upper body design
 Strap stay channels on chest
 NIKE Memory Foam
 Dri-FIT fabric lining
 BAUER grip print

Size
Elbow Senior
 [1028943] S, M, L
Elbow Junior
 [1028944] S, L

Features
PROTECTION:
 Vent Armor composite forearm cap
 Vent Armor foam bicep pad
 Dual density foam joint protection
 Pre curved poly reinforced forearm

FIT/MOBILITY:
 FREE FLEX elbow cap with dual shell design
 Multi-segmented bicep guard
 Anchor strap for secured fit across elbow joint
 NIKE Memory Foam
 Dri-FIT fabric lining
 BAUER grip print

Size
Shin Senior
 [1028949] 13", 14", 15", 16", 17"
Shin Junior
 [1028950] 10", 11", 12"

Features
PROTECTION:
 Asymmetrical Vent Armor composite shin shell
 Multi density knee pad
 Ventilated shin sling
 Adjustable calf wing with poly insert
 Pre-curved knee donut
 Segmented adjustable thigh guard
 Segmented removable liner with venting
 Extended knee wing dome technology

FIT/MOBILITY:
 FREE FLEX knee cap with flexible thigh guard
 FREE FLEX liner
 Anchor wrap strap across calf and knee
 Wrap strap lower leg closure
 NIKE Memory Foam
 Dri-FIT fabric lining
 BAUER grip print

VAPOR XXV Protective

Size
Shoulder Senior
 [1028932] S, M, L, XL
Shoulder Junior
 [1028933] S, M, L

Features
PROTECTION:
 Molded HD foam sternum plate
 Multi layer HD and MD foams in chest and spine
 Anatomical covered caps
 Poly reinforced bicep guards
 Multi layer HD and MD foam arch protection
 Removable extended core protection

FIT/MOBILITY:
 Multi-segment upper body design
 Adjustable length bicep guards
 Spinal flex shield
 Dri-FIT fabric lining
 Grip print

Size
Elbow Senior
 [1028945] S, M, L
Elbow Junior
 [1028946] S, L

Features
PROTECTION:
 Poly elbow caps
 Poly reinforced bicep pad
 Extended bicep wing with dome technology
 Elbow joint donut
 Dual density foam joint protection
 Pre-curved poly reinforced forearm

FIT/MOBILITY:
 FREE FLEX elbow cap with dual shell design
 Multi-segmented bicep
 Anchor strap for secured fit across elbow joint
 Dri-FIT fabric lining

Size
Shin Senior
 [1028951] 13", 14", 15", 16", 17"
Shin Junior
 [1028952] 10", 11", 12"

Features
PROTECTION:
 Anatomical, ribbed knee and shin shells
 Multi density foam joint protection
 Removable liner with extended thigh pad
 Pre-curved poly calf guard
 Extended knee wing protection
 Shin sling

FIT/MOBILITY:
 Segmented liner with pre-curved knee
 Anchor wrap strap across calf and knee
 Wrap strap lower leg closure strap
 Dri-FIT fabric lining

VAPOR XVI Protective

Size

Shoulder Senior
[1028934] S, M, L, XL
Shoulder Junior
[1028935] S, M, L

Features

PROTECTION:

Multi-segmented, multi panel upper body design
Poly reinforced foam panels in chest and spine
Anatomical poly shoulder caps
Poly reinforced bicep guards
Poly reinforced arch protection

FIT/MOBILITY:

FREE FLEX core construction
foam body panels
Hydrophobic mesh liner
Extended closures

Size

Elbow Senior
[1028947] S, M, L
Elbow Junior
[1028948] S, L

Features

PROTECTION:

Covered hard cap
Full wrap bicep guard
Poly reinforced forearm protection

FIT/MOBILITY:

3 elastic closure straps
Hinged bicep guard
Comfort foams
Hydrophobic mesh liner

Size

Shin Senior
[1028953] 13", 14", 15", 16", 17"
Shin Junior
[1028954] 10", 11", 12"

Features

PROTECTION:

Anatomical, ribbed knee and shell design
Removable, segmented liner
Full calf wrap
Shin sling

FIT/MOBILITY:

Dual wrap strap
Comfort foams
Hydrophobic mesh liner

SUPREME ONE95 PANT

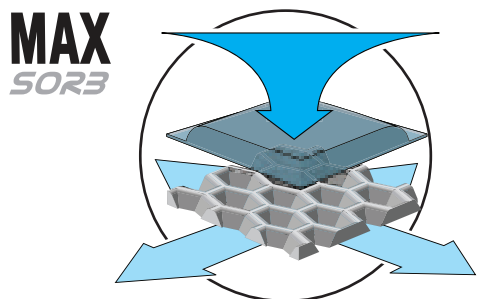

FULL-STRIDE PROTECTION

Hockey players demand protection and mobility with their hockey pants. The Supreme ONE95 pant responds with state-of-the-art protection and mobility like no other. MAX-SORB technology protects the spine with adjustability for a player's desired fit. Vent Armor kidney pads add lightweight breathability without sacrificing protection. Strategically placed gussets and zippers let a player personalize the fit while maximizing the stride without any restrictions.

ADJUSTABLE SPINE PAD WITH MAX-SORB

Protection to the max with BAUER's new MAX-SORB technology plus adjustability to a player's desired fit.

Attachment Points

STRETCH GUSSETS WITH ZIPPERS

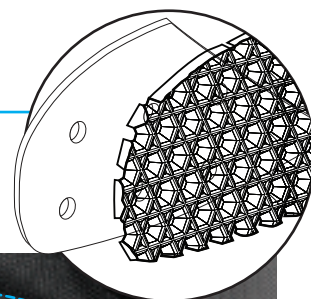

Built-in stretch gussets with zippers in the legs give a player the freedom to move on the ice with a personalized fit.

Inner Pleat

VENT ARMOR KIDNEY PAD

A segmented kidney pad constructed of lightweight, high-impact Vent Armor foam that offers lightweight protection plus ventilation.

ABRASION-RESISTANT NYLON

800 denier nylon makes high-abrasion areas more durable and helps prevent premature breakdown.

Supreme ONE95 Pant

Size

Senior [1031545] S, M, L, XL

Europe Senior [1031546] S, M, L, XL, XXL

Features

PROTECTION:

Adjustable spine protection featuring MAX-SORB
Vent Armor kidney protection
3 layer split thigh pads
High-density foam padding with poly inserts
800 denier nylon abrasion-resistant hip and leg overlays
Padded belt

FIT/MOBILITY:

Lace closure system with toggle
Segmented kidney pads
Segmented hip flex zones
Ventilated back panels
Dynamic flex zones
Stretch leg gussets with pleated zippers
Thermo Max+ liner

Colors

VAPOR XXXX PANT

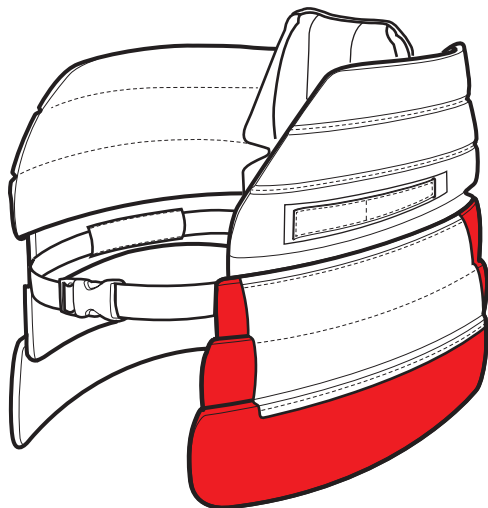

FIT FOR FAST

The revolutionary design of the Vapor XXXX Pant is the evolution of the traditional pant reducing restrictions through innovative techniques for added freedom of movement. Breathable foams and fabrics keep you cool, giving you the energy to go the distance and dominate the entire game.

3-PIECE SEGMENTED HIP GUARD

Use your energy more efficiently. The revolutionary segmented design reduces restrictions during the skating motion, giving you a smoother, more effortless stride.

ADJUSTABLE SPINE PAD & NIKE AIR UNIT

Two patented technologies — the adjustable spine pad with molded HD foam and the NIKE Air unit — allow players to customize their protection based on their own personal playing style.

Attachment Points

VENTILATED CONSTRUCTION

Breathable foams and fabrics in the Vapor XXXX pant keep you cool and comfortable, giving you more energy and keeping you explosive later in the game.

NIKE GRIP PRINT

NIKE Grip Print is strategically placed on the pant to keep it in contact with the player at all times for maximum comfort and security.

SEGMENTED KIDNEY GUARD

The Segmented Kidney Guard gives you all the protection you need while giving you a better range of motion with reduced restrictions.

VAPOR X:60 PRO GOAL

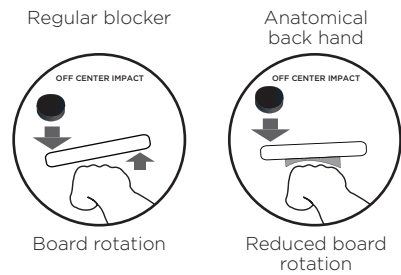

FLEXIBLE.
AGILE.
IN CONTROL.

Quick reactions call for reactive gear. The Vapor X:60 Pro Blocker, Pro Goal Pad and Pro Catch Glove gladly oblige, with a soft, broken-in feel and dynamic range of motion to suit your agile goal-tending style.

VAPOR X:60 PRO BLOCKER

Designed with the dynamic goalie in mind, the blocker offers articulated finger protection and increased mobility through the hand and wrist. The anatomically shaped back hand pad allows the Vapor X:60 Pro Blocker to sit snug, preventing over-rotation and allowing for greater puck control. The Thermo-core lining helps keep you cool and dry under pressure.

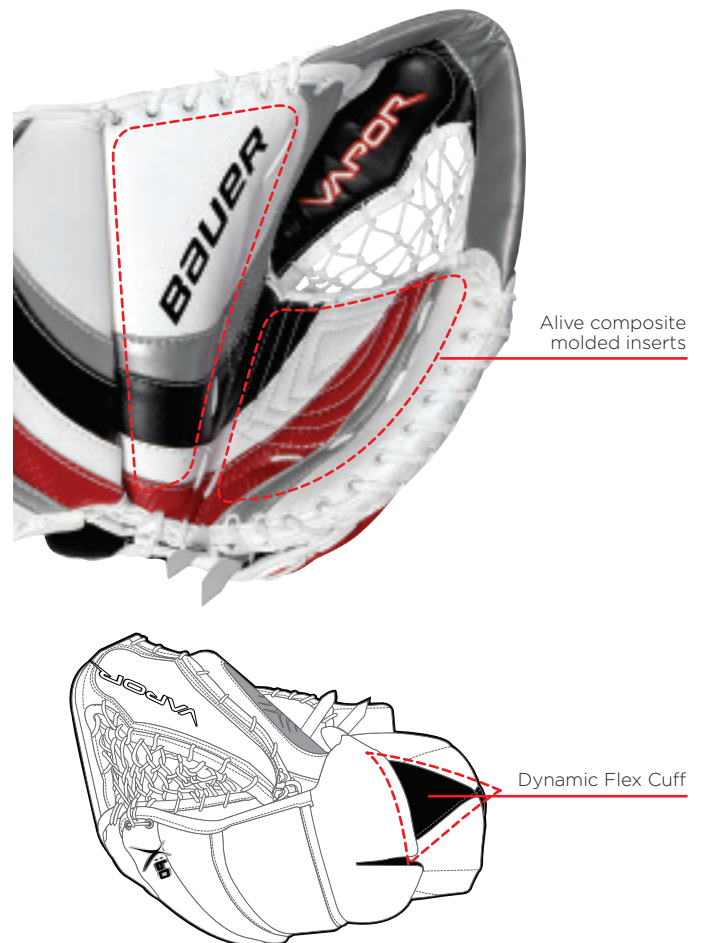

VAPOR X:60 PRO GOAL PAD

Some like it loose. Some like it tight. The Vapor X:60 Pro Goal Pad lets you have it your way with a knee stabilizer/shin cradle system that lets you adjust the fit and feel to your style of play. The four-point flex construction makes it easier to get into position while the vent armor foam core helps maintain the lightweight pro feel.

VAPOR X:60 CATCH GLOVE

Engineered using ALIVE composite molded inserts, this glove delivers extreme protection and a lightweight, reactive feel. The open face design and flexible pocket help provide a superior seal to the ice. The combination of the Dynamic Flex Cuff and a fully adjustable back hand allows for uninhibited range of motion and a fully integrated fit.

SUPREME ONE95 PRO GOAL

COMPLETE COVERAGE

Unprecedented blocking. Unparalleled flexibility. Unbelievable difference. The Supreme ONE95 Pro Goal Pad, Pro Goal Blocker and Pro Catch Glove give you the tools you need to dominate the goal, all in a lightweight, more comfortable package. When you need gear that can take the punishment and change your game, look to the Supreme ONE95.

PRO GOAL BLOCKER

Designed to meet IIHF goalkeepers' equipment size specifications, the Supreme ONE95 Pro Blocker offers 360° Index Finger Protection, a Flat Side Blocking Cuff to increase blocking surface area and keep rebounds predictable, and an Articulated Top Wrist Section that allows the goalie to have full control over the blocker by providing an unparalleled range of motion.

PRO GOAL PAD

Designed to meet IIHF goalkeepers' equipment size specifications, the Supreme ONE95 Pro Goal Pad will maximize your blocking coverage and have a quicker response time. The Integrated Knee Stacks stabilize and square pads to the ice during transition and increase energy transfer between leg and pad. While an Off-Set Inner Leg Channel keeps the goalie in proper position and relieves pressure on the knees. Triangular Outer Rolls deflect pucks downwards for rebound control.

Knee Stacks

Off-Set Inner Leg Channel

PRO CATCH GLOVE

Designed to meet IIHF goalkeepers' equipment size specifications, the Pro Catch Glove offers deep, rounded pocket for instant comfort and a great feel. The 3-D Split T-Trap Design increases the goaltender's ability to seal the glove closed with the puck inside, while a Molded Back Thumb gives superior lightweight protection.

Fitting Guides/Custom Program

NIKE BAUER FITTING GUIDE

Goaltending Equipment—The Fit

Goaltending is a unique and challenging position, the most important position on the ice. Each goaltender has special needs because of the way they react or play different situations. In order to play at the top of your game, you must have confidence in your equipment to perform and protect. Equipment confidence is a state of mind, which greatly affects a goaltender's movements.

A goaltender without equipment confidence feels unsafe and hesitates before making a move. Aside from selecting the right model of equipment for the level of play, the fit of the equipment is paramount. Purchasing equipment too large or too small will only limit the product's ability to perform and protect. Equipment that does not fit properly will never break in properly.

Care And Maintenance

Once you have selected the proper fitting model of equipment that enhances your style and is suitable to your level of play, you should ensure proper care and maintenance. Drying your equipment after each use prevents mildew and excessive and premature wear. No product should be used if damaged. Any cuts or tears should be mended right away. Old or worn equipment should be replaced to ensure maximum performance and protection. Finally, do not treat the synthetic materials with silicone or other water repellents.

When buying your goal equipment, keep these points in mind. Although properly fitted equipment cannot make a goalie, it can help goalies reach their full potential.

GOAL PAD FITTING GUIDE

The key factor here is the overall length. The length can be divided into three sections:

A) The boot, B) instep to the knee, and C) knee to top or thigh rise. The proper length of the goal pad boot is determined by the goalie's skate size. The next key area is the instep to knee that determines the shin length. Finally, the knee to top or thigh rise is a personal measurement depending on how much pant and pad overlap the goaltender prefers. A general rule is 7" to 8".

Custom Pad Sizing

- A. Instep to knee: measure from instep to the front center of kneecap while leg is in slightly bent position.
- B. Thigh rise: measure from front center of kneecap up the thigh to desired height.
- C. Skate size: provide the skate size for proper boot fit.

A + B + C = estimated size of pad

If fitted properly, the goalie's knee should rest directly behind the center knee roll with the pad securely attached to the goal skate and properly strapped on the goaltender's leg. Generally, this will ensure that the pad breaks (bends) at the knee/shin and ankle as designed for optimal performance.

Consumers are advised to bring their skates and goal pants when going to purchase pads. This will provide for a true fit, as you do not play the game in street shoes, while replicating the actual feel of the pads. Therefore, there are no surprises when the goaltender goes on the ice for the first time.

Note: There may be slight differences between manufacturer's sizing.

CATCH GLOVE FITTING GUIDE

Although the trend at all levels is toward oversized gloves, the goalie's fingers should extend out to the end of the finger stalls of the inside palm to ensure a proper fit. However, any more than $\frac{1}{4}$ " from the tip of the goaltender's finger to the end of the finger stalls and the goaltender will not have the leverage needed to properly close and control the glove (pocket).

Aside from the lack of control, the glove will also have a tendency to "break back" or fold, which will make the glove difficult to use. The second key factor is that the heel of your hand should line up with the heel and cuff of the catcher. If not, the proper balance between the cuff and catching portion of the glove may be disturbed, making the glove too cumbersome while sacrificing protection.

BLOCKER FITTING GUIDE

The blocker should be fitted based on the hand size. The goalie's fingers should be no more than $\frac{1}{4}$ " from the end of the fingers in the palm. If the fingers are too long, chances are the hand tabs that tie down to the blocker are too large. This will cause the blocker to wobble, tilt, or rotate on the goaltender's hand, seriously affecting control while limiting coverage (blocking surface).

Supreme ONE95 / ONE75 Intermediate — Supreme ONE55 Junior	S	20"-24" / 50 cm-61 cm	4'-4'5" / 122 cm-135 cm

Fitting Guide: Recommendations are based on average-sized consumers and should be used as a guide only.

Goal Pant Fitting Guide

When fitted properly, goal pants should provide unrestricted movement in the crouch position, but should not be so loose that they rotate excessively around the waist.

Loosely fitting pants provide superior net coverage in addition to making the goalie look bigger. Goal pants should provide overlapping coverage with the bottom of the chest pad and the tops of the goal pads.

As a guide, select goal pants 8" to 10" above your waist size and 6" to 8" larger for a junior.

NIKE BAUER Goalie Pant Chart

Model	Size	Actual Waist Size
Supreme ONE95 Pro / ONE75 / ONE55 Senior	XL	38"-42" / 97 cm-107 cm
	L	34"-38" / 86 cm-97 cm
	M	30"-34" / 76 cm-86 cm
	S	26"-30" / 66 cm-76 cm

Goal jocks are designed to minimize the risk of injury. No athletic cup can eliminate all potential injuries.

BAUER BASE LAYER

PERFORMANCE APPAREL ENGINEERED FOR THE ICE

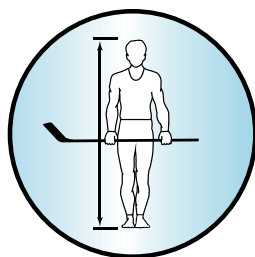

Introducing Bauer Base Layer, the all-essential layer between a hockey player's skin and his protective equipment. Newly re-imagined to address the game's unique demands — and enhance performance, inspired by extensive research, testing and collaboration. Plus the firm belief that the best product takes cues not just from the body but from the body in action.

Three levels of performance. Two types of fit. One true benchmark for the industry.

HOCKEY-SPECIFIC STYLING & FIT

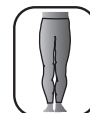

Engineered specifically for the needs of the hockey player, addressing the dynamics of the body and equipment during play.

BAUER HOCKEY FIT.
Not Tight, Not Loose, Just Right.
 Modern fit with ultimate mobility, minimal bulk and maximum comfort.

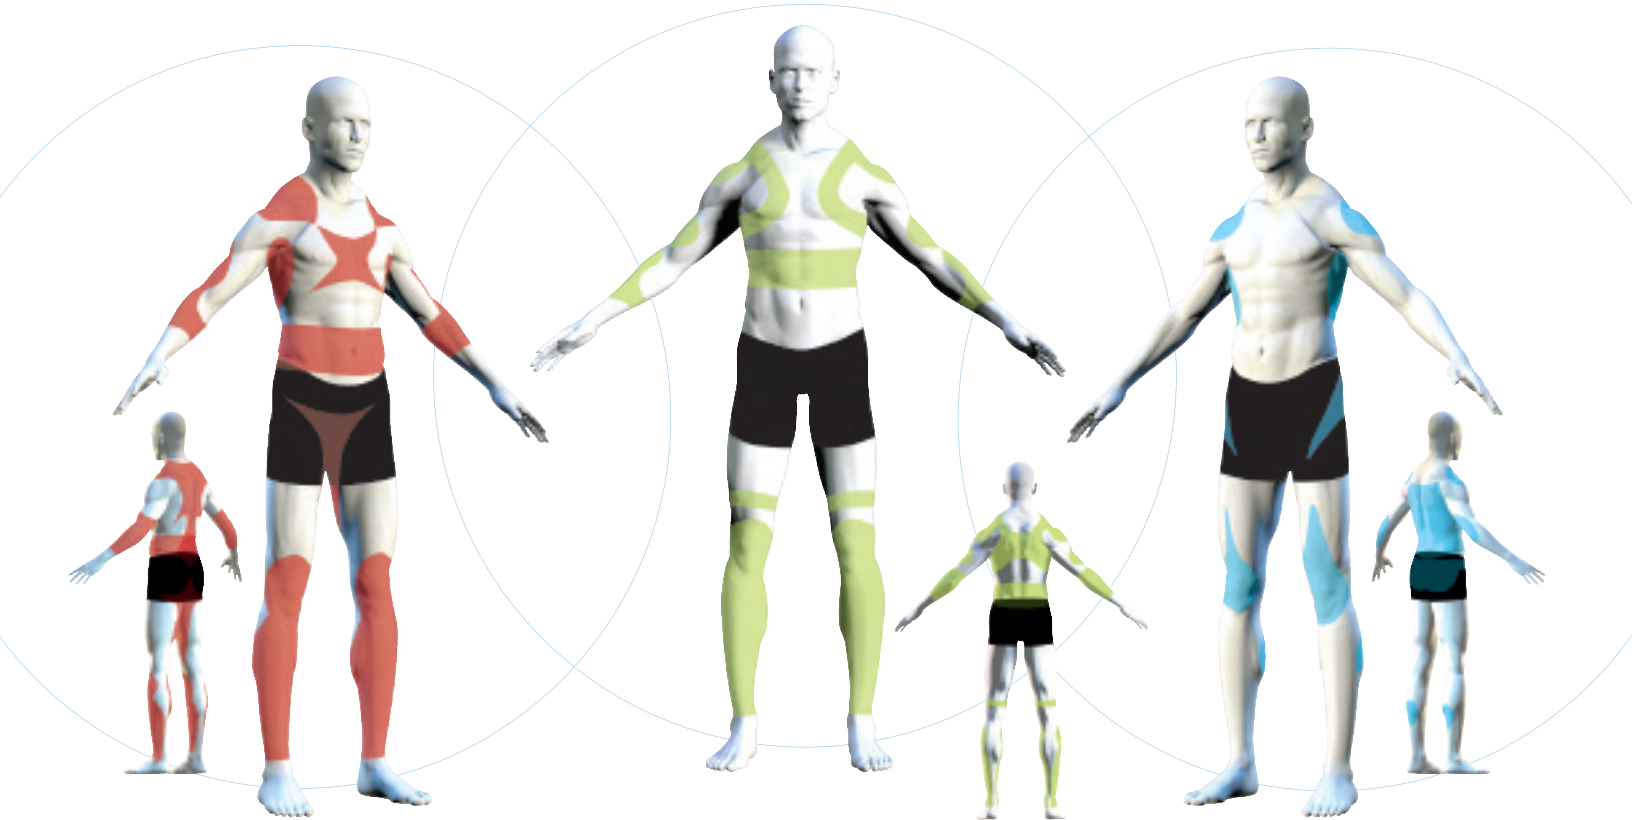

BAUER COMPRESSION FIT.
 Tight and close to skin. Compresses muscles and enhances blood flow. Minimum bulk and ultimate mobility.

HOCKEY SPECIFIC PERFORMANCE ZONES

Dynamics of the hockey player's body in relation to protective equipment and performance base layers.

VAPOR X:60 JOCK SHORT

PROTECTION AT ITS VERY CORE

Meet the new benchmark in hockey core protection, the Vapor X:60 Jock Short. Inspired by extensive research and influenced by the latest Bauer technology, this all-new, all-essential layer features a dual-density core cup complete with Vent Armor composite protection. State-of-the-art antibacterial fabric with strategic material patterns and seam placement ensures unparalleled on-ice performance during all game situations.

THERMO MAX+

Technologically advanced material with moisture-wicking properties to help regulate body temperature and prevent the build-up of bacteria.

PROTECTION ZONES

All-around protection for multiple game scenarios is essential to hockey equipment. The X:60 Jock Short features built-in padded protection in areas where hockey pants offer minimal protection — the back and inner thighs.

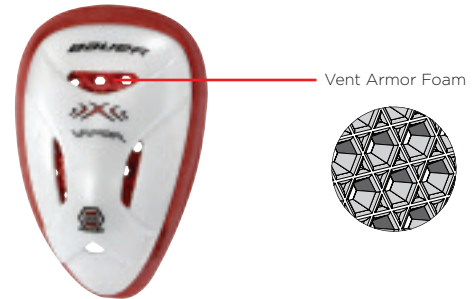

GAME-READY FIT

The game of hockey is full of situations requiring various reactions from the player — read, react, accelerate like never before. Strategically placed material patterns and seam placement provide flexibility and out-of-the-box comfort.

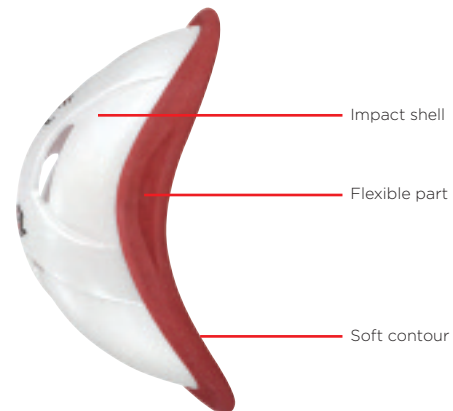

VENT ARMOR CUP

Light weight plus premium protection where you need it most.

DUAL-DENSITY CORE

Added flexibility helps the cup conform to a player's shape and ensures unsurpassed comfort.

How to Measure for A Good Fit

CHEST

Measure around the fullest part of your chest, keeping the tape firmly under your armpits and around your shoulder blades.

WAIST

Measure around the natural waist (where your body creases leaning to the left or the right).

SEAT

Measure around the fullest part of the seat.

- For best results, take measurements over undergarments.
- Hold tape measure firmly, not tightly.
- Keep tape measure parallel to the floor.
- Match your measurements to the above size chart. If measurements fall between sizes, go to the next size up.
